

In order to see 3-d model you need to download .exe file. It is safe and will not cause any virus related problems. In case your system doesn't allow downloading this kind of files you can follow this procedure:

- Download file with extension .z
- Save it on your computer
- Change extension to .exe
- Open the file to see 3-d model

ChryslerClutch.z

ChryslerClutch.exe

Note:

If file does not begin to download when you click on it, hold down CTRL key and click on the chosen file again. Follow the prompts.

On some computers holding down SHIFT does the job.
